## **Patient Responsibilities**

As part of the admission process, patients will be provided a document which describes their responsibilities and includes the following references:

Providing complete, accurate information about past illnesses, hospitalizations, medications, health-related matters, and insurance coverage and other sources of payment.

Answering questions asked by the health care team.

Working with the health care team to develop a treatment plan.

Assist in planning for discharge.

Telling the hospital staff and the health care team about any advance directives and providing copies.

Asking questions to help understand the treatment plan and advising if it is not understood or agreed with.

Following the treatment plan.

Patients are further advised of the responsibility to:

Respect and follow the rules, regulations and policies of the hospital.

Treat other patients, visitors and staff with respect and consideration.

Respect our staff's and other patients' right to privacy. The use of cameras, telephones or other devices.
